

Testimony, Light, object lesson

Watch Elder Bednar's talk, point out how he compared revelation to light. Tell the children how your testimony of the Savior started very small, like a small light. It started with a small truth.

What is one of the first truths you were taught about in Primary? (Jesus loves you! You are a child of God! Heavenly Father loves you!)

How did you know that these things were true?

How do you feel when you say out loud "Jesus Loves Me." (Bear testimony of the spirit).

That is the Holy Ghost helping us know it is true. Now lets try Peter's Testimony. (Reverently) "I know that Jesus is the Christ the Son of the Living Father."

(Matthew 16:13-17)

When you say that how does that make you feel? (May also need to point out how they have the spirit with them but they are very used to it, they may not think they feel the spirit, but it is definately there. Ask them if they have ever been in a situtaion where they felt the absence of the spirit.)

Have a small flash lights (or glow sticks, or tea lights) available.

Ask someone if they feel comfortable coming to the front and saying what they know is true about Jesus Christ. Dim the lights. Have them turn on a flashlight with every truth (Optional: add to a paper bag). Point out how bright this persons testimony has become from focusing on these simple gospel truths. Bear your testimony that as we bear witness of Jesus Christ our testimony will continue to grow.
