BRIGHTER  
AND...

THE RED CRYSTAL.ORG

Come Follow me-for primary  
D&C 50:23-25

My spiritual light can grow  
brighter and brighter.

Use an activity that illustrates  
how our spiritual light can grow  
brighter and brighter. You could  
show pictures of things that give  
light (such as a candle, a light  
bulb, and the sun) and let the  
children arrange them in  
increasing order or brightness.  
Or invite the children to pretend  
to be lights getting brighter by  
bending down and slowly  
standing and stretching up their  
arms. Help them think of good  
things they can do to make their  
spiritual light brighter.
